CHAPTER V CONCLUSION AND SUGGESTION

After analyzing discussing the problem in previous chapter, the researcher would like to present some conclusion, besides the researcher also give suggestions.

5.1 Conclusion

After analyzing the same speech by Jokowi, the research made conclusion. The terms being discussed would not be immediately, when it was heard for the first time. The listeners would interpret with various kinds of meanings.

Researchers have taken the data from some of the speeches that have been read by Jokowi during his presidency, then the researchers analyzed messages and context, filtering out some sentences that can be understood and understood the meaning of the sentence. Context on the analysis performed by the researchers is to include some 6 kinds, but more to understanding a sentence.

5.2 Suggestion

The significance of the research and the results of the study, the researchers’ goals some suggestions. Research hope that this study is useful for further research especially young research department of English at the State Islamic University Sunan Ampel Surabaya and useful for other researchers. It was
important for further research to conduct their research is not limited to two types of in-depth discussions but also broaden the analysis of the context

After the data is collected, analyzed in the following steps. Then the data will be presented every category analyzed and summarized. To analyze the data, the research identifies each of data, both words meaning research and explain step by step from the text of the speech by describing the type of context. Finally the researcher realized that this research is still far from perfect. So this research will listen to all good criticism and suggestions about this study under become more perfect
