DAFTAR TABEL ....................................................................................xiii
DAFTAR GAMBAR ...............................................................................xiv
DAFTAR LAMPIRAN ...........................................................................xv

BAB I PENDAHULUAN
A. Latar Belakang Masalah .................................................................. 1
B. Runtun Masalah ............................................................................. 4
C. Tindakan yang Dipilih ................................................................... 4
D. Tujuan Penelitian .......................................................................... 5
E. Lingkup Penelitian ........................................................................ 5
F. Signifikasi Penelitian ................................................................... 6

BAB II KAJIAN TEORI
A. Tinjauan Tentang Hasil Belajar .................................................... 9
  1. Hasil Belajar ............................................................................... 9
  2. Bentuk Hasil Belajar ................................................................ 10
  3. Teori Belajar Menurut Piaget ..................................................... 12
  4. Faktor-faktor yang Mempengaruhi ......................................... 14
B. Strategi Explicit Instruction ......................................................... 17
  1. Strategi Explicit Instruction ..................................................... 17
  2. Langkah-Langkah Strategi Pembelajaran Explicit Instruction .... 18
C. Hakikat Pembelajaran Matematika .............................................. 21
  1. Pengertian Pembelajaran Matematika ..................................... 21
  2. Teori-Teori Mengajar Matematika ......................................... 22
  3. Tujuan Pembelajaran Matematika di MI ................................. 26
  4. Ruang Lingkup Matematika ..................................................... 27
  5. Operasi Hitung Campuran ...................................................... 28

BAB III METODE PENELITIAN TINDAKAN KELAS
A. Metode Penelitian ......................................................................... 32
B. Setting Penelitian dan Karakteristik Subjek Penelitian ................ 34
C. Variabel yang Diselidiki ............................................................... 35
D. Rencana Tindakan ......................................................................... 35
E. Data dan Teknik Pengumpulannya ................................................. 46
F. Teknik Analisis Data .................................................................... 61
G. Indikator Kinerja ......................................................................... 65
H. Tim Peneliti dan Tugasnya ............................................................ 66

BAB IV HASIL PENELITIAN DAN PEMBAHASAN
A. Hasil Penelitian ........................................................................... 68
   1. Deskripsi Siklus I ................................................................. 68
   2. Deskripsi Siklus II ............................................................... 81
   3. Deskripsi Siklus III ............................................................. 93
B. Pembahasan .................................................................................. 106
   1. Siklus I .............................................................................. 106
   2. Siklus II ............................................................................ 108
   3. Siklus III .......................................................................... 109

BAB V HASIL PENELITIAN DAN PEMBAHASAN
A. Kesimpulan ................................................................................ 114
B. Saran .......................................................................................... 115
