CHAPTER V
CONCLUSION AND SUGGESTION

This chapter is the last chapter. It presents the conclusion as the result of this analysis. Furthermore, it also contains suggestion for further research to develop knowledge related to assertive acts.

5.1 CONCLUSION

The writer analyzes the types of assertive acts by using Searle’s theory. While, the writer analyzes the assertive verbs by using Leech’s theory. From the finding of the first and the second research problem, the writer finds the differences which appears between Percy Jackson and Annabeth Chase in applying assertive acts. The result from the finding and discussion are simply explained below.

There are 5 types of assertive acts that is used by Percy Jackson character in 71 utterances. The types are (1) Inform, (2) agree, (3) Disagree, (4) confirm and (5) deny. But, there are 6 types of assertive acts that used by Annabeth Chase in 62 utterances. The types are (1) Inform, (2) suggest, (3) agree, (4) disagree, (5) confirm and (6) deny. The most types of assertive acts that is used by protagonist characters is inform type. While, the less types of assertive acts that is used by protagonist character is suggest type. All types that is used by Percy Jackson and Annabeth Chase are exist in Searle’s theory.
There are 4 kinds of assertive verbs that is used by Percy Jackson and Annabeth Chase. They are (1) publicly, (2) confidently, (3) privately and (4) tentatively. The most kinds of assertive verbs that is used by Percy Jackson and Annabeth Chase is publicly assertive verbs. Whereas, the less kinds of assertive verbs that used by Percy Jackson and Annabeth Chase is tentatively assertive verbs.

The differences between Percy Jackson and Annabeth Chase in applying assertive acts are shown by the types of assertive acts and assertive verbs that they used in their dialogue. Percy Jackson tends to use disagree type and deny type of assertive acts. While, Annabeth Chase tends to use confirm type of assertive acts. Then, The assertive verbs that is used the most by Percy Jackson is publicly assertive verbs and The assertive verbs that is used the most by Annabeth Chase is confidently assertive verbs. Hence, the results of this research adds a new result that the strong and wise characteristic of Annabeth Chase is likely to clarifies the truth by giving some evidences or confirmations about the truth that purposely to affirm the statement. Whereas, the calm characteristic who is accused of the false accusation, Percy Jackson is likely to disagree and deny the accusation. Thus, Percy prefers to speak directly by declaring and announcing about the truth to avoid any misunderstanding.
5.2 SUGGESTION

This research focuses on the types of assertive acts, the kinds of assertive verbs and the differences between Percy Jackson and Annabeth Chase in applying assertive acts. Regarding to the result that Characteristic of the speaker can affect to the way the speaker speaks about the truth. This research has shown that the strong and wise characteristic tended to speak with evidence that purposely to affirm the statement. Whereas, the calm characteristic tended to speak directly to avoid any misunderstanding by declaring and announcing about the truth.

Knowing that this research has conducted in the adult conversation that is sited on the movie script. The writer suggests the next researcher to do a deep analysis in field of assertive acts which conducts an analysis in a new case of problem that can help to increase the variant issues in applying assertive acts.
