Title : Using advertisement slides in teaching writing monologue text at SMP Muhammadiyah 4 Gadung Surabaya

The technology development in this era makes many changes in teaching. Learning media is an educational tool for helping teacher to present materials in classroom. Using advertisement slides (Power Point) in teaching writing is one of the simple ways to serve the writing material, where teacher just puts the main point of material and gives slide with many kinds of picture, graphic, sounds and interesting views. It causes teaching writing to become complex, since writing is a unity of listening, speaking and also reading. Students want something different and fresh so that they can enjoy it. So during studying, the difficult things which happen in learning could be solved in an interesting way and make students enthusiastic about it. The research focuses on SMP Muhammadiyah 4 Gadung Surabaya at grade eight. This school is concerned with several things to support learning process such as library, computer, and LCD projector. SMP Muhammadiyah 4 Gadung Surabaya is one of the schools which are based on Islamic school by having a mission to become technology - based school.
