DAFTAR LAMPIRAN ....................................................................................................... xv

BAB I PENDAHULUAN
A. Latar Belakang .......................................................................................................... 1
B. Rumusan Masalah ..................................................................................................... 7
C. Tujuan Penelitian ...................................................................................................... 8
D. Manfaat Penelitian ................................................................................................... 8
E. Asumsi Penelitian .................................................................................................... 9
F. Batasan Penelitian .................................................................................................... 10
G. Definisi Istilah .......................................................................................................... 10
H. Sistematika Penulisan ............................................................................................. 11

BAB II KAJIAN PUSTAKA
A. Model Pembelajaran Terpadu ................................................................................. 13
B. Strategi Pembelajaran Kooperatif .......................................................................... 20
C. Pengertian Model *Webbed Learning* Berbasis Pembelajaran Kooperatif .......................................................... 23
D. Prinsip dan Karakteristik Model *Webbed Learning* Berbasis Pembelajaran Kooperatif .......................................................... 24
E. Sintaks Model *Webbed Learning* Berbasis Pembelajaran Kooperatif .......................................................... 25
F. Kriteria Kevalidan Perangkat Pembelajaran ..................... 26
G. Perangkat Pembelajaran dengan Model *Webbed Learning* Berbasis Pembelajaran Kooperatif .......................................................... 28
H. Hasil Belajar ........................................................................ 32
I. Respon Siswa ........................................................................ 34
J. Menentukan Arah Kiblat dengan Rumus trigonometri .. 35

**BAB III METODE PENELITIAN**
A. Jenis Penelitian ...................................................................... 51
B. Waktu dan Tempat Penelitian .............................................. 51
C. Model Pengembangan .......................................................... 51
D. Teknik Pengumpulan Data ..................................................... 54
E. Instrumen Penelitian .............................................................. 55
F. Teknik Analisis Data ............................................................... 57

**BAB IV HASIL DAN PEMBAHASAN PENELITIAN**
A. Analisis Data ........................................................................ 61
B. Pembahasan ........................................................................ 90
BAB V SIMPULAN DAN SARAN

A. Simpulan ............................................................................. 93
B. Saran ................................................................................... 93

DAFTAR PUSTAKA ..................................................................... 95

LAMPIRAN
DAFTAR TABEL

2.1 Fase-fase dalam pembelajaran kooperatif .......................... 23
2.2 Sintaksis Webbed learning berbasis pembelajaran Kooperatif ........................................................................... 25
3.1 Hasil validasi perangkat .......................................................... 57
3.2 Kriteria pengkategorian kevalidan perangkat Pembelajaran ................................................................................. 58
4.1 Rincian waktu dan kegiatan pengembangan RPP ................. 61
4.2 Uraian singkat kegiatan pembelajaran setiap RPP ............... 67
4.3 Uraian singkat kegiatan LKS ..................................................... 69
4.4 Daftar nama validator ................................................................. 70
4.5 Hasil validasi RPP .................................................................... 70
4.6 Daftar revisi RPP 1 .................................................................... 72
4.7 Daftar revisi RPP 2 .................................................................... 74
4.8 Hasil validasi LKS .................................................................... 76
4.9 Hasil validasi tingkat keterbacaan ........................................... 76
4.10 Hasil validasi LKS ................................................................. 76
4.11 Daftar revisi LKS 1 ................................................................. 77
4.12 Daftar revisi LKS 2 ................................................................. 78
4.13 Jadwal kegiatan implementasi ............................................... 79
4.14 Hasil angket tingkat keterbacaan LKS siswa ....................... 80
4.15 Hasil angket tingkat keterbacaan LKS dari siswa dalam Presentase ................................................................. 80
4.16 Hasil respon siswa dalam presentase ..................................... 82
4.17 Data hasil belajar siswa ......................................................... 83
4.18 Hasil respon siswa ................................................................. 83
4.19 Hasil respon siswa dalam presentase ..................................... 84
4.20 Data respon siswa ................................................................. 84
4.21 Data hasil belajar siswa ......................................................... 88
DAFTAR GAMBAR

2.1 Pembelajaran terpadu tipe connected ........................................ 14
2.2 Pembelajaran terpadu tipe webbed ........................................... 15
2.3 Pembelajaran terpadu tipe nested .............................................. 16
2.4 Pembelajaran terpadu tipe integrated ......................................... 17
2.5 Aplikasi segitiga bola pada bidang datar ..................................... 35
2.6 Bola bumi segitiga bola ABC ....................................................... 42
3.1 Diagram Model ADDIE ............................................................... 52
4.1 Identifikasi Keterpaduan Rumus Trigonometri thd Penentuan Arah Kiblat ................................................................. 64
