DAFTAR ISI ............................................................................................................................................ xi

BAB I PENDAHULUAN ......................................................................................................................... 1

A. Latar Belakang ................................................................................................................................. 1

B. Ruang Lingkup dan Rumusan Masalah ....................................................................................... 6

C. Tujuan Penelitian ............................................................................................................................ 7

D. Kegunaan Penelitian ....................................................................................................................... 7

E. Pendekatan dan Kerangka Teori .................................................................................................... 8

F. Penelitian Terdahulu ....................................................................................................................... 11

G. Metode Penelitian .......................................................................................................................... 12

H. Sistematika Pembahasan ................................................................................................................ 14

BAB II ILMUWAN MUSLIM DAN SAINS ......................................................................................... 16

A. Sains dalam Pandangan Islam ...................................................................................................... 16

B. Ilmuwan Muslim dan Penemuannya ........................................................................................... 19
C. Kontribusi Ilmuwan Muslim di Bidang Sains................................. 21

BAB III BIOGRAFI IBNU AL HAYTHAM..................................................32
A. Riwayat Hidup Ibnu Al Haytham .................................................. 32
B. Perjalanan Ibnu Al Haytham dalam Menempuh Pendidikannya...... 34

BAB IV PEMIKIRAN-PEMIKIRAN IBNU AL HAYTHAM.........................37
A. Pemikiran Ibnu Al Haytham dalam Bidang Sains ......................... 38
B. Teori-Teori dan Hasil Temuan Ibnu Al Haytham ............................. 43
C. Relevansi Teori Ibnu Al Haytham dengan Sains Masa Kini ............. 47

BAB III PENUTUP .................................................................................60
A. Kesimpulan ..................................................................................... 60
B. Saran-saran ..................................................................................... 61
