The writer took the data from the dialogue of Nemo as main character in “Finding Nemo”, an animation movie by Andrew Stanton. First, he identified the illocutionary act classification in Nemo’s utterance. Second, he observed the
context which supported the analysis. Below the explanation of research findings in the table above:

1. **Representative**

   Representative shows the truth condition of the meaning of the utterance. Searle in Yule (1996: 53) states that representative is kinds of speech acts that state or express what the speaker believes to be the case or not. The example of this type are agree, deny, affirm, allege, announce, believe, boast, complain, conclude, forecast, inform, insist, predict, report, state, and suggest. The following are Nemo’s utterances that included in representative illocutionary act:

   1) **Affirm**

   Nemo’s utterances involved in affirm of representative illocutionary act is as follow:

   **Data 3**

   A conversation between Nemo and Marlin (his father) in minutes

   00:06:20---> 00:06:27, as follows:

   **MARLIN** : Are you sure you wanna go to school this year? ’Cause there's no problem if you don't. You can wait 5 or 6 years.

   **NEMO** : Come on, dad. It's time for school.

   a. Meaning

   From the dialogue, Marlin asks to his son whether he really want to start school this year or not. Then Nemo answers, “*Come on, dad. It's time for school*”. From the utterance, Nemo affirms that he is really want to start school this year. He conveys it by invite his father to go to school soonly.
Nemo’s illocutionary act above is representative. Representative describe some state of affairs. Nemo conveys his believe that he is really want to start school from this year. It is clear that this utterance is affirm. Here, the speaker affirms that he really want to start school this year.

4.2. Discussion

After analyzing the whole data based on statement of the problem, the next part is the discussion of illocutionary acts used by Nemo and the context.

**4.2.1. Types of Illocutionary Acts used by Nemo**

In Nemo’s utterances there are four kinds of illocutionary act are used, the discussion as follows:

1. Representative

One of four illocutionary acts which founded in Nemo’s utterances is representative. Types of representative used by Nemo are affirm, believe, forecast, informing, denying, stating, agreeing and concluding. The data can be identified as representative is number 3, 4, 5, 9, 10, 11, 18, 19, 20, 25, 30.

Affirm used by Nemo in data 3 when he makes sure his father that he really want to start school. Believe appears in data 25 when Nemo helps Dory get out from the fishing net. Data number 5 identified as forecast because in his utterance Nemo hopes or imagines that he will meet a shark. Informing is founded in four data, they are data number 4, 9, 18 and 30. Then, for denying,
stating, agreeing and concluding each of them appear once in data number 10, 11, 19 and 20.

2. Directive

The point of this illocutionary act is an utterance used to get the hearer to do something. The speaker intends to produce some effect through action of the hearer. Directive illocutionary act which is founded in Nemo’s utterances are ordering, asking, requesting and commanding. The data which identified as directive illocutionary act are number 1, 2, 6, 7, 8, 14, 15, 16, 17, 22, 13, 26, 27, 30.

Data number 1 and 2 are identified as ordering because in those data Nemo orders his father to wake up. Asking of directive illocutionary act identified appears in data number 6, 14, 15 and 23. In data 6 Nemo asks a permission, while in data 14, 15 and 23 he asks for information. Data number 7, 8, 16, 17, 22, 26 and 27 identified as requesting. In those data, Nemo wants the hearer to do something for him. He mostly uses it to ask a help. Commanding appears one in data number 28. It is used by Nemo when he saves Dory and other fishes from the fisherman’s fishing net. He commands them to swim down to the bottom of the sea.

3. Commissive

This illocutionary act is an act which the speaker commits to do something in the future. The example of this point are promising (e.g. “I will give you some money”), threatening (e.g. “I will kill you”), and offering (e.g. “Would you mind go to school together with me tomorrow?”). One of those examples
identified appears in Nemo’s utterance, it is offering. It appears in data number 24 when Nemo offers Dory to look for someone who they mean.

4. Expressive

Expressive act is the types of illocutionary act that state or express what the speaker feels. Such as thanking (e.g. “Thanks a lot”), apologizing (e.g. “I am sorry”), congratulating (e.g. “Happy wedding, my friend”), etc. The data can be identified as expressive is number 12, 13, 21 and 29.

Systematically those data identified as mocking, disappointing and apologizing. Mocking and disappointing each of them appear once in data 12 and 13, they used by Nemo in expressing his unpleasant to his father. While apologizing, it appears twice in data 21 and 29. Nemo uses it to ask sorry to Gill and his father.

4.2.2. Context

There are some contexts of illocutionary acts used by Nemo. He uses to other characters. It includes the participants, setting and event (or situation).

In the participant there are three subcategory, addresser, addressee, and audience. The addresser is a person who speaks the utterance, the addressee is a hearer and the audience is the over hearer. Then, setting is the time and place when they do a dialogue. Next, event is something that occurs in a certain place.

In Nemo’s utterances, the setting of place that used is in Nemo’s house, school, ocean, aquarium and the sea of Sydney. While for the addressee of Nemo’s utterances, they are Marlin, Tad, Gill, Deb, Gurgle and Dory. The
next, there are many context of event (or situation) that used in Nemo’s utterances, such as when Nemo is shucked up into a pipe in the aquarium, when Nemo meets Dory who looks sad and confused, when Nemo wakes his father up to drive him to school, and so on as described in the research findings.

Context is needed to know the intended meaning of the utterance. Context has an important role in interpreting a sentence. The same utterance will have different meaning if the context of each utterance is different. For example in data 6 and data 11 below:

Data 6

**NEMO** : Dad, dad...can I go play too? Can I?

**MARLIN** : I would feel better if you go play over on the sponge beds.

Data 11

**MARLIN** : This does not concern you, kids. And you're lucky I don't tell your parents you were out there. You know you can't swim well.

**NEMO** : I can swim fine, dad, okay?

Both of those dialogues above show that the participants are Nemo and Marlin. Nemo is the addressee, and Marlin is the addressee. But, they have different setting and event (situation).

The first dialogue (data 6), it happens in Nemo’s school. At that time, Nemo has arrived at school, he finds his friends playing swimming here and there. As a little fish, he has a desire to join playing with them.
The second dialogue (data 11) occurs in the ocean. At that moment, Marlin is angry. He advises Nemo. Marlin is very worry about him because with his little fin he cannot swim well.

Both of Nemo’s utterances above ended by question mark. But, they have different meaning because the context of event is different. Based on the context, data 6 is involved in asking of directive illocutionary act. In that dialogue, Nemo asks permission to his father to play with his friends. While data 11, it is involved in stating of representative illocutionary act. Nemo states his believe to his father that he can swim well.
