CHAPTER V

CONCLUSION

5.1. Conclusion

After analyzing the data and classifying them based on the form of the code switching and code mixing, and the reason of code switching and code mixing, the researcher intends to discuss the finding that have been investigated in this section to answer the research question. Based on the research finding, it is clear that the characters utterances show the form and the reason of code mixing and code switching.

In addition, based on the analysis the are four form of code switching and code mixing. The conversation characters sometimes use code switching and code mixing. The researcher finds four of the reason characters using code switching and code mixing. The characters use code switching and code mixing in speak English switch or mix to Indonesia because they want to show their ethnic identity, self emotion, asserting power, pride and status being more competent.

Moreover, the function of the characters use code switching and code mixing is affective function, they speak with another one must understand the word of utterance’s the speaker, but the listener needs to get the affective message.
5.2. Suggestion

After conducting this research, the researcher recognizes that this research is still many weaknesses. For the next researcher who will research of code switching and code mixing analysis, it hopes to focus their research on deep analysis. Moreover, the researcher hopes also that people who are interested in sociolinguistics field are challenged continue this research and write a better research.

The research suggest to the next researchers conduct similar thing of this study with more complete data and discussion. It expects that the result of this study is going to lead the next researcher who conduct the same topic of research as the reference or comparison that might be relevant to their researchers. Finally, the researcher hopes this research can give a beneficial contribution to people and reader especially to researcher who will conduct a research.
