BAB I PENDAHULUAN
  A. Latar Belakang Masalah ......................................................................... 1
  B. Rumusan Masalah ................................................................................. 6
  C. Tindakan Yang Dipilih ......................................................................... 6
  D. Tujuan .................................................................................................. 7
  E. Manfaat Penelitian ............................................................................. 7
  F. Definisi Operasional .......................................................................... 8

BAB II KAJIAN TEORI
A. Pembelajaran Matematika Dengan Menggunakan Media Gambar
   1. Pembelajaran Matematika ..................................................... 10
   2. Teori Belajar Matematika ..................................................... 12
   3. Media Gambar ................................................................. 14
   4. Atutan Penggunaan Media Gambar ..................................... 16
B. Hasil Belajar ......................................................................... 19
C. Kemampuan Guru Dalam Mengelola Pembelajaran .......... 20
D. Pecahan ............................................................................... 22
E. Model Pembelajaran Langsung ............................................. 24

BAB III METODE PENELITIAN
A. Jenis Penelitian ................................................................. 26
B. Setting dan Subyek Penelitian
   1. setting Penelitian ................................................................. 27
   2. subyek Penelitian ............................................................... 28
C. Variable yang diselidiki .......................................................... 28
D. Rencana Tindakan ................................................................. 28
   1. Siklus I ................................................................................. 31
   2. Siklus II ............................................................................... 34
   3. Siklus III .............................................................................. 36
E. Sumber Data dan Cara Pengumpulannya ......................... 39
F. Analisis Data .......................................................................... 40
1. Penilaian Tugas ................................................................. 41
2. Penilaian Ketuntasan Belajar ........................................... 41
3. Penilaian Observasi Guru .................................................. 43
G. Indikator Kinerja .............................................................. 44
H. Tiim Peneliti dan Tugasnya .............................................. 44

BAB IV HASIL PENELITIAN DAN PEMBAHASAN
A. Hasil Penelitian
   1. Siklus I ........................................................................... 45
   2. Siklus II ........................................................................... 50
   3. Siklus III ........................................................................ 56
B. Pembahasan
   1. Siklus I ........................................................................... 63
   2. Siklus II ........................................................................... 64
   3. Siklus III ........................................................................ 65

BAB V : PENUTUP
A. Simpulan ............................................................................. 67
B. Saran-Saran ...................................................................... 68
